

# Stock up your fridge

Stash these products in the icebox. If your AC goes kablooey or the heat index hits 100+, pull 'em out for a cooling experience like no other:

➡ Face and body lotions, especially those in gel form, like **Simple Ultra-Light Gel Moisturizer** (\$11, drugstores) and **Éminence Organic Skin Care Aloe Mint Hydrating Cream Gel for Body** (\$48, [dermstore.com](http://dermstore.com)).

➡ A roll-on eye cream, like **Olay Fresh Effects Bright On Schedule Eye Awakening Cream** (\$15, drugstores). The cold metal applicator shrinks puffiness and lessens dark circles.

➡ A light, airy fragrance, like **Pour Le Monde Together** (\$95 for 1.7 ounces, [pourlemondeparfums.com](http://pourlemondeparfums.com)). The cold doesn't hurt the juice in the bottle; in fact, it keeps it fresh longer. Spray on pulse points to bring down your temperature.
