Do well for your body and for the world with every spritz of Pour le Monde Perfumes. The three 100 percent natural scents in the collection—Empower, Envision and Together—contain essential oils and natural grain alcohol, as opposed to synthetic fragrances and phthalates. Each scent benefits a different charitable cause, and 10 percent of the net sales goes back to one of three organizations. (\$95, [PourLeMondeParfums.com](http://PourLeMondeParfums.com))

Our mom reviewer, Peggie M., raved: "I was pleasantly surprised that two hours after spraying Empower onto my [skin](#) I could still smell the fresh, citrus scent. This is my go-to perfume now!"
