1. China Glaze Road Trip Collection

The Road Trip Collection by China Glaze was released in February, just in time to prepare you for spring weather and spring break. The collection of cool blues and greens and fun pinks and reds was inspired by the setting sun and “celebrates the free spirit who lives for adventure and creates her own experiences.” We’re particularly fond of My Way or the Highway and Pop the Trunk.

2. Pomegranate, Argan, and Grape-seed Skin Smoothing Body Scrub

Tired of dead, dry winter skin and ready for a dose of springtime? Try this skin smoothing body scrub from Crabtree & Evelyn. Using exfoliating sunflower wax beads to slough off dead skin cells and pomegranate and argan oils and grape seed extract to restore moisture, this scrub works to take out the old and bring in the new when it comes to winter skin. Its sweet, fruity scent will transport you to a sunnier place, at least for a while.

3. Pour le Monde 100% Natural Perfumes

Pour le Monde is a perfume company on a mission to change the world one bottle at a time. With each purchase of a full size bottle, Pour le Monde donates 5% to a coordinating charity. Each of the three natural, re-

freshing scents has a corresponding charity: Envision sponsors the National MS Society, Together benefits the Cancer Support Community, and Empower supports the Guiding Eyes for the Blind. The company is also certified by Peta’s Beauty Without Bunnies, the Forest Stewardship Council, and the Natural Products Association, among others.

4. OPI Infinite Shine Gel Effects Lacquer System

OPI recently introduced a new “gel-like” manicure system for infinite shine. The three part manicure consists of a primer, lacquer, and gloss. The gloss boasts a gel-like durability which comes from a state of the art gel polymer formula. Infinite Shine offers the perks of a gel manicure without the light. It dries quickly in natural light and doesn’t come off until you’re ready to remove it.

5. PCA Skin Smoothing Body Peel

This professional grade product works to improve skin’s appearance and texture by exfoliating, smoothing, and brightening the entire body. The treatment evens skin tone and clears the complexion of your arms, legs, back, chest, hands, and feet. The Smoothing Body Peel Treatment comes as part of a two step system; the Pre-Peel Accelerator Mask softens and hydrates the skin’s surface in preparation for the exfoliation to follow.
